

Bushra Zafar

Web Developer Internee | HTML | CSS | JavaScript

Motivated Web Developer with hands-on experience building responsive, interactive web applications. Completed Personal Portfolio Website, E-Commerce Landing Page, and Interactive Dashboard — covering frontend fundamentals through advanced data visualization.

Frontend Web Developer Profile

HTML5, CSS3, JavaScript, Chart.js
— responsive & interactive web apps.

PROFESSIONAL EXPERIENCE

Web Developer Intern

CodingFirst

Bahawalpur, Pakistan | Sep 2025 – Mar 2026

- Developed and deployed three full frontend projects — Personal Portfolio, E-Commerce Landing Page, and Interactive Dashboard — from requirements to production-ready state within the internship duration.
- Built a fully responsive Personal Portfolio Website using semantic HTML5, CSS Grid, Flexbox, and vanilla JavaScript, achieving consistent rendering across all major browsers and screen sizes.
- Implemented a feature-complete E-Commerce Landing Page with dynamic shopping cart, real-time form validation, local storage persistence, and smooth AJAX-based interactions.
- Created an Interactive Dashboard with live-updating Chart.js data visualizations, async data fetching, performance-optimized rendering, and large dataset handling.

Web Development Trainee

Islamia University of Bahawalpur (IUB)

Bahawalpur, Pakistan | Aug 2025 – Mar 2026

- Completed a structured 18-week web development curriculum covering HTML5, CSS3, JavaScript fundamentals through advanced concepts including OOP, async programming, and browser APIs.
- Built four progressive projects as part of the program: responsive portfolio, e-commerce page, data dashboard, and a task management application with drag-and-drop and offline-first functionality.
- Practiced version control with Git/GitHub, code review workflows, and deployment to live hosting environments.

FEATURED WEB PROJECTS

Personal Portfolio Website

HTML5, CSS3 (Grid & Flexbox), Vanilla JavaScript, Responsive Design

- Designed and built a fully responsive portfolio with semantic HTML5 structure, CSS animations, and DOM manipulation — showcasing projects, skills, and contact form with client-side validation.
- Achieved cross-browser compatibility and mobile-first layout using CSS Grid and Flexbox; optimized assets for fast load times.

AT A GLANCE

3

Projects Delivered

100%

Responsive & Cross-browser

18

Weeks of Training

4+

Core Web Technologies

WHAT I DELIVERED

- Shopping cart with localStorage persistence & real-time updates
- Chart.js dashboards with async data & live refresh
- Mobile-first responsive design across all projects
- Git version control & live deployment experience

CORE SKILLS

HTML5 & CSS3

Semantic HTML, CSS Grid, Flexbox, animations, transitions, media queries, mobile-first responsive design, cross-browser compatibility

JavaScript

DOM manipulation, OOP patterns, async/await, Fetch API, local storage, form validation, event handling, ES6+ features

E-Commerce Landing Page

HTML5, CSS3, JavaScript (OOP), Local Storage, Form Validation

- Built a dynamic e-commerce landing page featuring a shopping cart with add/remove/quantity controls, persistent state via localStorage, real-time price calculation, and multi-step form validation.
- Applied object-oriented JavaScript patterns for state management, and implemented smooth UI transitions and interactive product filtering.

Interactive Data Dashboard

JavaScript (Async/Await), Chart.js, REST API Integration, Performance Optimization

- Created a real-time interactive dashboard with multiple chart types (line, bar, doughnut) using Chart.js, async data fetching, live data refresh, and KPI summary cards.
- Optimized for large dataset rendering with debounced updates and efficient DOM operations; implemented responsive layout for mobile and desktop views.

Data Visualization

Chart.js (line, bar, doughnut), real-time data updates, KPI dashboards, large dataset optimization, async rendering

Web App Features

Shopping cart logic, state management, multi-step form validation, drag-and-drop, offline-first (Service Workers), AJAX interactions

Dev Tools & Workflow

Git, GitHub, browser DevTools, VS Code

EDUCATION

Bachelor of Information Technology

Islamia University of Bahawalpur (IUB)

2022 – 2026 | Bahawalpur, Pakistan
